

DISSYO

Health. Air. OpenSource.

We care about your breath...

About air conditioners market

...in the world

+100 bn usd
New volume market
...yearly

+100 mio new
AC units
...yearly

CAGR 9.9%

Questions that we had...

-  What if we could monitor the air quality in indoor spaces...
-  ...sterilize the air conditioner and room where it is located...
...from viruses...including SARS-Cov-2...?
-  What if we could record that data and fill the database with it...
...and make it open for use....?

That's what Dissyo does....

product

Sensors

- air quality – CO2
- temperature
- humidity
- air pressure
- energy consumption
- movement

UVC lamp (USP)...

- all can be installed...
- ...on split and built-in devices

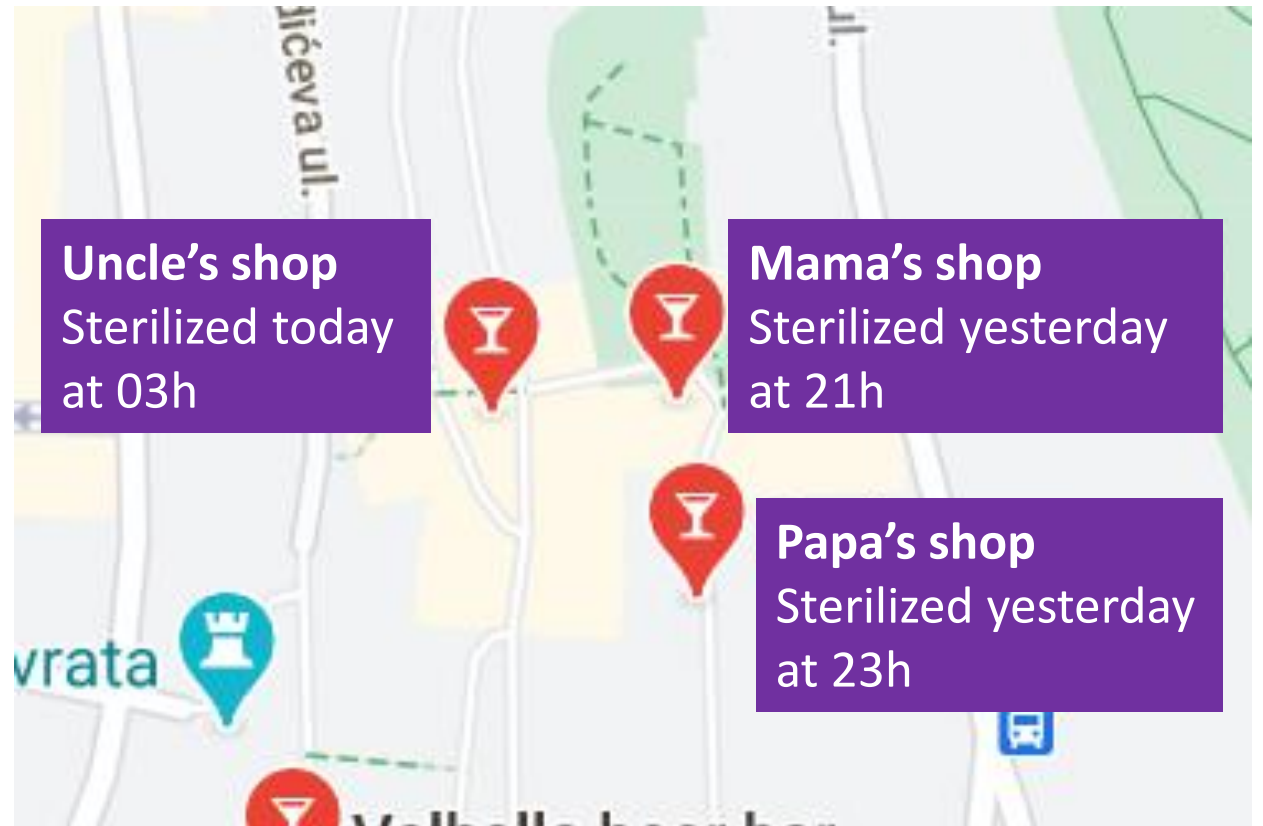

advance technology used...and it is alive...
...but we will develop it further...

IT...web, app

How can you use Dissyo sterilization opensource map?

Open source data used...

How can you use Dissyo opensource database?

...social benefits

Revenues expected...

127 mio usd

Sales of Dissyo solution...
...in first 4 years...
Expected net margin 25%
